

Anatomy & Physiology Quarter 1 Calendar

Items in Red are larger assignments spanning a week or longer.

<u>Week</u>	<u>Topics</u>	<u>Assignments Due</u>
8/17-8/21	No Class: August Academy	No Assignments
8/24-8/28	Define Anatomy & Physiology 11 Body Systems Necessary Life Functions Survival Needs Orientation & Directional Terms	--Orientation Crossword --Body Parts and Organ Systems --Human Body Questions
8/31-9/4	Abdominopelvic Regions Body Cavities and Planes Levels of Organization	--Anatomical Sports Story --Chapter Questions
9/7-9/11	Chemical Basis for Life Cells and Growth	-- Test over Human Body Orientation, Organ Systems, & Body Cavities --Cell Diagram/Model
9/14-9/18	Cell Biology: organelles, transport, division, respiration, & synthesis Types of cells	--Classify major types of cells --Diagram of active and passive transport
9/21-9/25	Major Tissue Types: Structure, Function, Tumor Formation Viewing Tissues	-- Cells Test --Tissue Lab Online --Study Questions --Research Topic selection: Diseases of the Integumentary System
9/28-10/2	Integumentary System Research on Integumentary System Homeostatic Interrelationships	--Integumentary anatomical structures and functions --Skin Diagrams --Diseases and Disorders of the Integumentary System
10/5-10/9	Functions of Integumentary System Imbalances Skin	-- Research paper due on Diseases & Disorders --Study Questions -- Test over Tissues and Integumentary System
10/12-10/16	Fall Break (End of Quarter 1)	No Assignments
