

Typing Requirements for 5th - 8th Grade

-  Each student must take 3 typing tests per quarter
-  The test will be displayed on the smart board for one minute then the test will vanish
-  Students will be required to tape a piece of paper over their keys, this will force them to use proper keyboarding techniques
-  If, during any part of the test the paper is lifted or they look under the paper the student will restart the test. If it is a frequent occurrence the student will fail that test.
-  The test will be grade appropriate and developed by the Instructor
-  Students must manage their time to incorporate several practice sessions using the typing software provided by the school.
-  All tests will be averaged and added to the report card.
